

ROHIT PATHAK

Technical Product Manager

Abu Dhabi, UAE | +971 567874381 | pathak.a.rohit@gmail.com | Golden Visa Holder | www.rohitpathak.com

SUMMARY

12+ years in enterprise software. Senior PM with hands-on AI engineering. Shipped LLM copilots for global EPC and energy majors. Builds prototypes, then scales through engineering teams. RAG, agentic systems, Azure PaaS. Career embedded with enterprise customers.

COMPETENCIES

- Generative AI (LLMs, RAG, Agentic Systems) • Semantic Kernel & LangChain • Azure PaaS • Full-Stack Prototyping
- Customer-Embedded Delivery • Requirements-to-Solution • Cross-Functional Program Management • Enterprise SaaS Lifecycle
- Stakeholder Management • Executive Workshops & Discovery • Go-to-Market Enablement • Responsible AI & Governance

APPLIED AI PROJECTS

Operational Data AI Agent — Multi-Source RAG Assistant | rohitpathak.com/geo-agentic-int

Full-stack agentic RAG app over industrial data: 7 assets, 9 years of history. Single NL interface across time-series, tables, reports, and logs. Hybrid retrieval (vector + BM25) with anomaly detection.

Stack: Python, LangChain, LangGraph, OpenAI, FAISS, BM25, LlamaParse, React, FastAPI, Railway

Vision-LLM for Construction Defect Detection | Internal TestFlight

Mobile app detecting construction defects from photos via Gemini 2.5 Flash. Structured JSON output: defect type, severity, bounding boxes. Confidence gating ($\geq 80\%$) suppresses false positives. Generates annotated photos and a defect register.

Stack: Gemini 2.5 Flash, structured JSON prompting, React Native (Expo), Node.js, Supabase, PDFKit

EXPERIENCE

Hexagon AB | Enterprise Digital Platforms & SaaS

Hyderabad, India

Senior Product Manager

Jan 2023 – Dec 2025

Product Manager

Sep 2018 – Dec 2022

- Led enterprise engineering platform modernization: 64-bit .NET, multi-tenant cloud, GenAI.
- Shipped AI agents for NL queries on engineering databases. Retrieval cut from days to hours.
- Launched production RAG assistant on proprietary knowledge bases. 40% ticket deflection.
- Defined safe-agent guardrails: allow-listed APIs, RBAC, audit trails, human review.
- Owned positioning, launch, sales enablement, and adoption.
- Retained top revenue accounts; won 2-3 majors from the primary competitor.
- Founded customer advisory board; ran executive AI-roadmap workshops with EPC and energy customers.
- Defined AI telemetry, ROI metrics, and prioritization scoring adopted across business units.
- Evangelized via 100+ demos and briefings; won "Voice of the Customer" award.

Hexagon AB | Enterprise Digital Platforms & SaaS

Huntsville, AL, US

Support Analyst → Promoted to Product Manager

Sep 2013 – Sep 2018

- Technical lead for multi-billion-dollar infrastructure deployments.
- Built SDK automation scripts. 80% reduction in repetitive engineering work.
- Authored knowledge base documentation. 25% faster ticket resolution.
- Triaged complex platform issues with engineering. Accelerated release cycles.

CERTIFICATIONS

Certified Scrum Product Owner – Scrum Alliance

LangChain for LLM Application Development – DeepLearning.AI

Multi AI Agent Systems with CrewAI – DeepLearning.AI

EDUCATION

Master of Science (MS) | North Carolina State University, Raleigh, NC, US (2011–2013)

Bachelor of Technology | National Institute of Technology, Rourkela, India (2005–2009)
