

ROHIT PATHAK

Senior Product Manager

Abu Dhabi, UAE | +971 567874381 | pathak.a.rohit@gmail.com | Golden Visa Holder

SUMMARY

AI-driven Senior Product Manager with 10+ years **building enterprise SaaS, AI/ML products, GenAI copilots, RAG systems, and PaaS solutions** for global engineering, infrastructure, and industrial-tech clients. Proven success in LLM-powered product delivery, scalable platform development, and end-to-end product lifecycle leadership.

CORE COMPETENCIES

AI / ML & Technical

Generative AI (LLMs, RAG, Agentic Systems) • AI/ML Product Development • Azure PaaS • MLOps Awareness • Telemetry & ROI Tracking

Product & Strategy

Product Strategy & Roadmapping • Data-Driven Prioritization • Enterprise SaaS Lifecycle • Backlog Grooming • Sprint Planning

Leadership & Go-to-Market

Cross-Functional Leadership • Stakeholder Management • Customer Research & Discovery • Go-to-Market Enablement • Responsible AI & Governance

EXPERIENCE

Hexagon AB | Enterprise Digital Platforms & SaaS

Hyderabad, India

Senior Product Manager | Jan 2023 – Dec 2025

- **3x faster execution:** Built and scaled LLM-based agentic systems (AI copilots) automating complex 3D engineering workflows, saving hundreds of engineering hours/month globally.
- **Natural-language data access:** Delivered enterprise AI agents enabling NL queries on complex databases, accelerating cross-functional decision-making.
- **40% support ticket deflection:** Launched production-ready RAG assistant on proprietary knowledge bases, enabling expert-level query resolution with substantial SLA and cost reduction.
- **2 AI MVPs in 12 months:** Drove full lifecycle from problem framing to prototyping, user testing, and field validation across five international regions.
- **AI prioritization framework:** Designed cost-impact and effort-based scoring models for data-driven roadmap decisions across multiple business units.
- **Product telemetry & ROI:** Defined KPIs to quantify feature-level time savings, business value, and adoption metrics across AI portfolio.
- **Responsible AI champion:** Ensured compliance with traceability, governance, security, and ethical AI standards across the model lifecycle.
- **Customer discovery leadership:** Led executive workshops identifying AI opportunities and aligning engineering, design, data science, GTM, and CS teams.
- **“Voice of the Customer” award** for delivering measurable productivity gains and high-impact outcomes for enterprise users.

Product Manager | Sep 2018 – Dec 2022

Hexagon AB | Enterprise Digital Platforms & SaaS

Huntsville, AL, US

Support Analyst | Sep 2013 – Sep 2018 → **Promoted to Product Manager**

- **Mission-critical enterprise support:** Led support for deployments powering multi-billion-dollar infrastructure projects with continuous uptime and compliance.
- **80% efficiency gain:** Developed SDK-driven automation scripts eliminating repetitive manual processes and reducing engineering effort.
- **25% faster ticket resolution:** Authored comprehensive Knowledge Base documentation improving customer self-service and support scalability.
- **Product quality influence:** Collaborated with engineering and product teams to triage complex platform issues, accelerating release cycles.

CERTIFICATIONS

Certified Scrum Product Owner – Scrum Alliance

LangChain for LLM Application Development – DeepLearning.AI

Multi AI Agent Systems with CrewAI – DeepLearning.AI

EDUCATION

Master of Science (MS) | North Carolina State University, Raleigh, NC, US (2011–2013)

Bachelor of Technology | National Institute of Technology, Rourkela, India (2005–2009)
