ROHIT PATHAK

PRODUCT MANAGER | ENTERPRISE AI & AGENT PLATFORMS

Abu Dhabi, UAE | +971 567874381 | pathak.a.rohit@gmail.com | www.rohitpathak.com

SUMMARY

12+ years leading enterprise software from customer discovery through global launch. Modernized a category-leading engineering platform across desktop, cloud, and agentic AI. Shipped governed Semantic Kernel agents, defended strategic accounts, and led multiple teams across the US, Asia, and Europe.

APPLIED AI PROJECTS

Factory Maintenance & Turnaround Planning | **rohitpathak.com/u100/#/scope**
Built an AI-assisted turnaround planner that reconciles SAP PM, PI historian, and drawing records; flags scope gaps and drafts evidence-linked maintenance work packages for review.

Jev Decision Model - Routing Benchmark | **rohitpathak.com/how-good-is-jev**
Built an interactive benchmark comparing Jev's typed routing with GPT models on CLINC150, BANKING77, and HWU64; shows accuracy, latency, and cost by request.

Operational Data AI Agent - Multi-Source RAG | **rohitpathak.com/geo-agentic-int**
Agentic assistant across 7 assets and 9 years of time-series, tables, reports, and logs. Hybrid vector/BM25 retrieval with anomaly detection.

Vision-LLM for Construction Defect Detection | **App Store https://apps.apple.com/in/app/structra-inspect/id6795109088**
Mobile defect detection with structured output, confidence gating, bounding boxes, annotated photos, and defect registers.

Tools & Technologies: Python | LangGraph | OpenAI | Gemini 2.5 Flash | React Native | React | FastAPI | FAISS | Supabase | Next.js

CORE STRENGTHS

Enterprise AI & Agent Platforms | Product Vision & Roadmaps | Customer Discovery | Executive Influence
Go-to-Market & Launch | Adoption & Retention | Agent Governance & Responsible AI | Product Analytics | Azure PaaS

EXPERIENCE

Hexagon AB | Enterprise Digital Platforms & SaaS — Hyderabad, India
Senior Product Manager — Jan 2023 - Dec 2025
Product Manager — Sep 2018 - Dec 2022

- Set product vision and roadmap for Smart 3D modernization from VB6 to 64-bit .NET/WPF. Improved average workflow speed up to 35%; selected journeys ran 2-3x faster.
- Owned positioning, target customers, release criteria, launch, sales enablement, communications, support readiness, and adoption.
- Retained top revenue accounts; won 2-3 major accounts from the primary competitor and 2-3 additional strategic deals.
- Migrated core capabilities to multi-tenant cloud; led nine teams across the US, Asia, and Europe, including two 10-member teams.
- Shipped Semantic Kernel agents for data retrieval and 3D workflows; cut reporting and retrieval from days to hours at 2-3 flagship accounts.
- Took agentic 3D modeling from POC to executive sponsorship, productization, and release.
- Defined safe agent actions via allow-listed APIs, RBAC, restricted operations, validation, confirmations, audit trails, and human review; prohibited deletion.
- Founded a customer advisory board; translated customer feedback into roadmap priorities and field-validated releases.
- Evangelized releases through 100+ formal demos, executive briefings, webinars, customer stories, and videos.
- Defined AI telemetry, ROI metrics, and cost-impact-effort scoring adopted across business units; won the Voice of the Customer award.

Hexagon AB | Enterprise Digital Platforms & SaaS — Huntsville, AL, US
Support Analyst to Product Manager — Sep 2013 - Sep 2018

- Technical lead for multi-billion-dollar infrastructure deployments.
- Built SDK automation scripts, reducing repetitive engineering work 80%.
- Authored knowledge content and triaged platform issues with engineering; cut ticket resolution 25% and accelerated releases.

CERTIFICATIONS

Certified Scrum Product Owner - Scrum Alliance | LangChain for LLM Applications - DeepLearning.AI | Multi-Agent Systems with CrewAI - DeepLearning.AI

EDUCATION

Master of Science (MS) | North Carolina State University, Raleigh, NC, US — 2011 - 2013
Bachelor of Technology | National Institute of Technology, Rourkela, India — 2005 - 2009
